

Single Door - No Middle Shelf Worksheet

Uses 4 "L" Bracket Installation On Base Shelf & 2 "RB" Bracket Installation For Upper Shelves

The *no middle shelf* type cabinet will use:

- 4 "L" bracket method of installation for the base shelf
- 2 "RB" bracket method for the upper shelves

2 rear bracket installation for upper shelves

4 "L" bracket installation for base shelf

- A** - From hinge (if present) to other side of opening
- B** - From rear wall to inside of face frame
- C** - From opening edge to other side of opening

- A** Record the measurement from hinge to opposite side of opening. If there is no hinge, then measure from side of opening to opposite side of opening.
- B** Record the measure from the rear wall to the inside edge of the front face frame
- C** Record the distance from one side of the opening to the opposite side of the opening. The upper shelf area should be clear of any hinges
