Full extension concealed runners **Rear attachment options Basic components Locking devices Runners**

Height adjustment

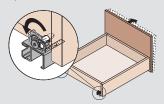

- 1 Press up on adjustment tab
- 2 Push towards back of drawer

Maximum 3 (1/8") rise of drawer front (tool-free) Maximum 5 (3/16") rise of drawer back (tool-free)

Tilt adjustment

Rotate the tilt adjustment lever on the rear of each runner to lift the back of the drawer and tilt the top of the drawer front forward

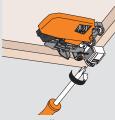

NOTE: Height and tilt adjustments available with all combinations of locking devices and runners

Depth adjustable locking device

Locking device

T51.1901.PS

with side-to-side. height and depth adjustment

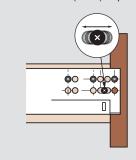

Turning the adjustment screw allows for up to a +2.5 (3/32") out adjustment

NOTE: For T51.1901.PS setback in inset applications, see page 5

Depth adjustment on runner

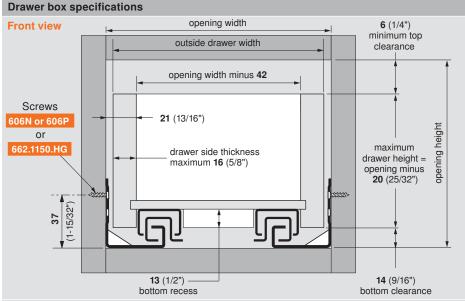

TANDEM 563 runners feature elongated holes that allow ±4.5 (3/16") depth adjustment

NOTE: Side-to-side adjustment not available on T51.x8xx locking devices

Drawer specifications

ablum°

NOTE: Drawer side material thickness may vary. Accurate measurement of drawer side material thickness should be used when calculating outside drawer width using the table below. Inside drawer width **must** equal opening width minus **42** (1-21/32") for TANDEM to align and function optimally.

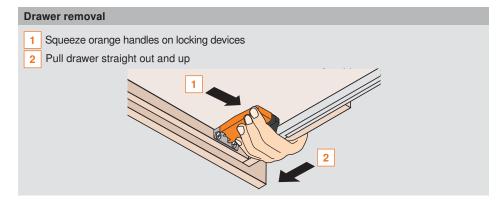

Calculating outside drawer width													
For drawer side thickness	16 (5/8")	15 (19/32")	14 (9/16")	13 (1/2")	12 (15/32")								
Deduct from opening width	10 (13/32")	12 (15/32")	14 (9/16")	16 (5/8")	18 (23/32")								

Example: For 21" opening width and a 5/8" thick drawer, 21" minus 13/32" = 20-19/32" drawer width

Preparing for hardware installation Locking device T51.1901 with side-to-side adjustment or T51.1801 without side-to-side adjustment Installation screw 606N or 606F Pre-boring holes for locking devices 2.5 mm bit with extension chuck Pre-boring holes for rear hooks 6 mm bit with stop collar TANDEM template T65.1600.01

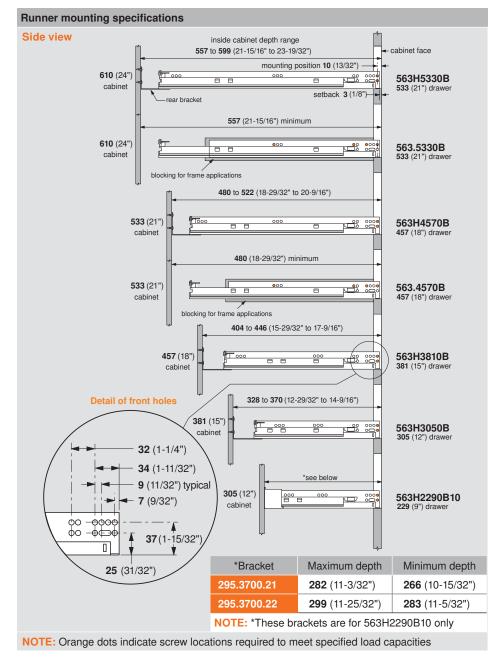

NOTE: Use of the T65.1600.01 TANDEM template is essential for accurate location and angle of pre-bored locking device holes and accurate boring for rear hook holes

Extend the concealed runners fully. Place the drawer on the runners and close. The locking devices automatically engage with the runners. Make adjustments if necessary.
