

How To Complete Your QuikDrawers QuikTRAY Worksheet

For Double Door Cabinets WITH A Center Divider

• Step 1:

- Fill out the customer information block beneath the line drawing of the cabinet including: Name, Email Address, Phone Number, State, and Zip code. (Cabinet numbers and names are optional)

• Step 2:

- To the right of the customer information block, select your desired “All N One Kit” type.
 - “2 Shelf All In One Kit” (Item # 14288) –
 - Kit includes
 - (2) 3 ½ tall rollouts (heights can be adjusted)
 - (2) sets of rollout slides
 - (1) 20” tall set of QuikTRAY pilasters
 - (2 or 4) Rollout door bumpers (determined by number of doors per cabinet opening)
 - Installation screws
 - “3 Shelf Pot & Pan Kit” (Item # 27512) – Minimum recommended opening height is 21”
 - Kit includes
 - (3) Rollouts
 - **With ALL side mount rollout slide models
 - (1) 3 ½” tall rollout, (1) 6” tall rollout, & (1) 9 ½” tall rollout
 - **With Undermount Concealed rollout slides
 - (1) 3 ½” tall rollout, (1) 5” tall rollout, & (1) 8” tall rollout
 - (3) sets of rollout slides
 - (1) 20” tall set of QuikTRAY pilasters
 - (3 or 6) Rollout door bumpers (determined by number of doors per cabinet opening)
 - Installation screws
 - “5 Shelf Pantry Kit” (Item # 28131) -
 - Kit includes
 - (5) 3 ½” tall rollouts (heights can be adjusted)
 - (5) sets of rollout slides
 - (3) 20” tall set of QuikTRAY pilasters – Totaling 60” overall height (can be trimmed to fit shorter opening)
 - (5 or 10) Rollout door bumpers (determined by number of doors per cabinet opening)
 - Installation screws
 - “6 Shelf Pantry Kit” (Item # 27924) -
 - Kit includes
 - All rollout heights can be adjusted
 - (1) 3” tall rollout
 - (4) 3 1/2” tall rollouts
 - (1) 6” tall “High Back” rollout
 - (6) sets of rollout slides
 - (3) 20” tall set of QuikTRAY pilasters – Totaling 60” overall height (can be trimmed to fit shorter opening)
 - (6 or 12) Rollout door bumpers (determined by number of doors per cabinet opening)
 - Installation screws

- **Step 3:**
 - Select your desired rollout slide type.
 - Side Mount – Standard NON-soft close slides (Mounts to sides of rollouts and can be seen when rollout extended)
 - Side Mount Soft Close – Soft close slides (Mounts to sides of rollouts and can be seen when rollout extended)
 - Undermount Soft Close – Soft close slides (Mounts to bottom of rollouts and CANNOT be seen when rollout extended)
- **Step 4:**
 - Select whether your cabinet’s interior is white or not
 - This selection will determine the color of your QuikTRAY pilasters (White or Beige)

How To Measure For Your QuikDrawers QuikTRAY Worksheet

<p>“LFR” & “RFR”</p> <p>“LFR” - Recess from LEFT edge of opening to surface of LEFT interior wall</p> <p>“RFR” - Recess from RIGHT edge of opening to surface of RIGHT interior wall</p>  <p style="background-color: yellow;">If your cabinet is frameless (does not have a face frame) mark “N/A”</p>	<p>“LOW” & “ROW”</p> <p>“LOW” - Total width of LEFT cabinet opening</p> <p>“ROW” - Total width of RIGHT cabinet opening</p>  <p style="text-align: center;">Frame to Center Divider</p> <p style="background-color: yellow;">(DO NOT measure from hinges)</p>	<p>“CDW”</p> <p>Width of “Divider” separating the left and right openings</p> 
<p>“CID”</p> <p>Length from inside face frame to rear inside surface</p>  <p style="background-color: yellow;">If your cabinet is frameless (does not have face frame) measure to face edge</p>	<p>“LHI”</p> <p>Amount that the LEFT side hinge reduces the “LOW” dimension (left to right, not front to back)</p>  <p style="text-align: center;">If there is not a hinge on the left side, mark Zero</p>	<p>“RHI”</p> <p>Amount that the RIGHT side hinge reduces the “ROW” dimension (left to right, not front to back)</p>  <p style="text-align: center;">If there is not a hinge on the right side, mark Zero</p>

- **Step 5:**

Submit your worksheet for a quote by emailing your worksheet to QuikQuotes@QuikDrawers.com or faxing to 1-866-642-9971. We will process your dimensions and send you details about your kit(s) including the kit components and rollout dimensions.
